Handbook on Crisis and Disaster Management in Tourism

Research Handbooks in Tourism series

Edited by Bruce Prideaux, Professor of Tourism, Faculty of Hospitality and Tourism, Prince of Songkla University, Phuket Campus, Thailand and Emeritus Professor, School of Business and Law, Central Queensland University, Australia and David Beirman, (tourism specialist) Adjunct Fellow, Management Discipline Group, University of Technology Sydney, Australia

Recent global crises such as the COVID-19 pandemic have further emphasised the need for improved disaster management within the tourism industry, and with this in mind, the Handbook on Crisis and Disaster Management in Tourism fully addresses the importance of crisis and disaster readiness. This erudite Handbook brings together contributions from both leading tourism practitioners and scholars of a variety of disciplinary backgrounds, ranging from economics to hospitality, to showcase collaborative approaches to destination and business recovery.

'This is an important addition to the literature and will be a very useful book for both senior and junior academics and PhD students and should hopefully find its way into the hands of practitioners.'
– Peter Mason, Journal of Qualitative Research in Tourism

'The Handbook on Crisis and Disaster Management in Tourism is a valuable and timely contribution to an important but understudied area in tourism research. This book examines a diverse array of geographical locations, offering a comprehensive analysis of the multifaceted nature of crises and disasters within the tourism sector. It presents a synthesis of theoretical frameworks, methodological approaches, case studies, and practitioner insights.'
– Hélder Silva Lopes, International Journal of Tourism Policy

'This edited volume offers a thorough exploration of the diverse challenges confronting the tourism industry amid crises, including natural disasters, political unrest, and the ongoing effects of the COVID-19 pandemic. Each chapter addresses distinct vulnerabilities and responses of different tourism sectors, highlighting the critical roles of resilience, adaptation, and collaboration. It is a valuable resource for researchers and academics focused on crisis and disaster management within hospitality and tourism. The conceptual discussions throughout the book establish a solid research foundation for understanding crisis and disaster management dynamics in tourism and hospitality organizations at various levels. Empirical studies from diverse geographical contexts underscore the significance of learned lessons for enhancing resilience, recovery, and future responses. This integration of theory and practice provides readers with a unique opportunity to reflect on applying these concepts to address crisis and disaster management challenges.'
– Zahed Ghaderi, Journal of Hospitality and Tourism Management

'This is an important book. The authors are world experts in tourism risk, resilience and recovery. Bruce Prideaux served for more than 20 years in the Australian Army Reserve and he played a role with James Cook University''s Centre for Disaster Studies. David Beirman is a founding member of the Consular Consultative Group, which advises the Department of Foreign Affairs and Trade on travel advisories and tourism safety and security issues. Both men have been involved in assisting nations recover from a wide range of disasters and problems that have affected tourism. It''s a fine achievement.'
– Weekend Australian (18-19th May 2024)

'This Handbook provides an excellent synthesis of theories, concepts and practical management strategies to effectively manage crises and disasters in tourism. A focus on rapidly emerging crises, such as climate change and emerging technology are timely and especially important. This book is a must read for students, researchers and industry.'
– Brent W. Ritchie, The University of Queensland, Australia
