Subject: Application for the Software Engineering Intern Position

Dear Sir/Madam,

I am writing to express my interest in the Software Engineering Intern position at your esteemed organization. I am currently pursuing a Bachelor of Science (Hons) in Industrial Information Technology at Uva Wellassa University of Sri Lanka. Through my academic studies and project experience, I have developed a strong foundation in software engineering principles and modern web application development.

I have hands-on experience with technologies including PHP, Laravel, React.js, Node.js, JavaScript, MySQL, HTML, CSS, and Git. I have also worked on several academic and real client projects, which have strengthened my problem solving, teamwork, and software development skills. I am eager to enhance my technical knowledge by working in a professional environment while contributing positively to your organization's software development initiatives.

I have enclosed my resume for your kind consideration. I would be grateful for the opportunity to attend an interview and discuss how my knowledge, enthusiasm, and willingness to learn would make me a valuable addition to your team.

Thank you for your time and consideration. I look forward to your favorable response.

Yours faithfully,

W. Pasindu Madhushan Perera.
